WAGE SCALE DEMANDS

To Be Presented to Soft Coal Operators Are Considered

Demaads Which Will Also Serve as Basis of Scales in All Fields Will Be Submitted to Men

CLEVELAND, O., Sept. 19.—The wage scale demands to be presented to the soft coal operators in the central competitive field of Ohio, Illinois, and western Pennsylvania which will serve as the basis of relative wage scales in all the bituminous fields of the country will be submitted to the convention of the United Mine Workers of America on Monday or Tuesday morning at the latest.

To Make Instructions Mandatory

Attempts will be made to make the instructions of the convention on the principal demands regarding the amount of the increase (presumably about sixty per cent) and the shortening of working time to six hours daily, five days a week mandatory upon the miners' representatives in the joint scale conference at Buffalo on Sept. 25, and to direct them either to obtain recognition of these principal demands without change or to call out the bituminous miners of the country in a general strike on November 1.

Submit Many Resolutions.

A large number of resolutions criticising former scale conferees for taking demands formulated in convention as a basis of negotiation and accepting agreements embodying something less than the original demands, and directing them this time to insist upon the adoption of the demands of the convention to the letter have been submitted and in the present temper of the delegates the adoption of such mandatory instructions seems probable.

Farrington and Murray.

The men who are formulating the scale demands on which the question of a general strike of coal miners will depend are Frank Farrington of Springfield, Ill., and Philip Murray of Pittsburgh, presidents of the Illinois and Western Pennsylvania district organizations, to whom this has been referred by the scale committee.

Favor Six Hour Day

An amendment to the constitution making the six hour day, instead of the eight hour day one of the aims of the organization was adopted today. The sessions of the convention were devoted entirely to constitutional changes the most important being the adoption of the elective instead of the appointive of organizers, auditors and other officials.

Amendment Rejected.

Another amendment proposing that officials should be elected for only one term and must go back into the pit as working miners for at least two years before becoming again eligible was rejected.

The convention recommended that the salaries of the president, secretary-treasurer and other officers should be increased by the same percentage as is granted in the new scale.

Evening Adjournment

An evening adjournment was taken in the midst of a debate on an amendment strengthening the constitutional provisions against membership in the industrial workers of the world and similar organizations. The clause which already provides disbarment from office in the United Mine Workers of America for anyone accepting membership in the I. W. W., the Working Class Union or any other dual union not affiliated with the American Federation of Labor, was amended to make such disbarment permanent to make any member of such radical organizations ineligible for membership and to include specifically the "one big union" among the outlawed organizations.

ELECT OFFICERS

Chicago, Sept. 19.—The International Lyceum and Chautauqua association today elected William H. Stout, Indianapolis, president, and P. H. Kemerer, Carrollton, Ohio, treasurer. The 1920 convention will be held in Waterloo, Iowa.

—BULLETINS—

LONDON, Sept. 19.—After a conference between allied commanders at Albania, allied warships have left the harbor of Fiume and have levelled their guns on the town, according to a German government wireless report quoting advices received in Berlin to Laibach and Vienna. The dispatch states that it is assumed that an ultimatum will be sent demanding that Captain D' Annunzio's forces evacuate the town within twenty four hours.

KEY WEST, Sept. 19.—Imbedded in quicksand under forty feet of water off Rebecca Shoals lighthouse, divers today found the hulk of a vessel believed to be the Spannish passenger liner Valbanera, which has been missing since the eastern portion of the gulf of Mexico was swept by a hurricane ten days ago.

The divers reported no trace was found of the three hundred passengers and 150 members of the crew reported aboard the Spanish liner when she left Spain for Havana. Further investigation is expected beyond doubt to prove the identity of the wreck and if it is proven to be the Spanish liner throw some light on the 450 persons aboard.

SPEAKS AT DULUTH.

Johnson Likens League to Partnership of World Nations.

Duluth, Minn., Sept. 19.—America's entry into the league of nations will mark the formation of a partnership between the one going, solvent country in the world with certain European bankrupts who "after our first experience in meddling and muddling in foreign politics have come to secretly despise and detest us." Senator Hiram W. Johnson said in addressing a large and enthusiastic audience here tonight.

"The league of nations,' he said, "comes to us after its principal members have been gorged with territory with their boundaries and their limits increased beyond the wildest dreams and with other immense tracts of the world's surface yet to be distributed among them.

"After these extra-ordinary accessions of territory the ore going solvent national concern on earth undertakes, by article ten, to guarantee forever these extraordinary territorial limits.

"This section puts the world in a straight-jacket wherein there can be no movement for betterment or progress of humanity.

"Beyond and above all this the maintenance of this static condition is to be accomplished by the blood of just one nation and that is ours.

"Are you ready Americans to pledge your sons and your sons' sons to maintain and preserve, for all time, the present governments of the little nations we are setting up in Europe and the present governments and boundaries of the British and Japanese empires.

"The great fundamental question which every American father and mother should answer is this: 'Shall American boys police the world? Shall American blood uphold, maintain and preserve old world governments and the territorial integrity of the nations which have immensely increased their boundaries?'"

MORE BODIES RECOVERED

Known Dead as Result of Sunday's Storm Totals Nearly 400

Corpus Christi, Texas, Sept. 19.—Recovery of ninety eight additional bodies along the north shore of Nueces Bay brought the known dead as a result of Sunday's storm to nearly 400, and caused fears that the total death rol might reach double that number.

The rising estimate of the dead is based largely on conditions along the Nueces shore line where there is much wreckage that has not been penetrated and under which it is believed there are many bodies. Compliation of figures at relief headquarters here showed a total of 386 dead with only a small percentage of additional identifications. Excepting about fifteen, these victims are believed to have been from Corpus Christi.

Marked progres was made in the work of clearing away the debris from the downtown streets.

EAT TOO MUCH MEAT

Women Physicians Assert Meat is "Curse of the Nation.

New York, Sept. 1.—The eating of meat was the target of attacks in addresses delivered today before the international conference of women physicians. Dr. Graham Lusk, professor of physiology at Columbia University, declared that meat was the "curse of the American nation and the foundation for the high cost of living," while Dr. E. V. McCullom of Baltimore asserted that unless the consumption of meat is reduced and fresh green vegetables substituted the nation would be visited with some sort of a plague like beri-beri or pellagra. Dr. McCullom said that the poor had a mistaken idea that meat was an essential food with the result that they suffered from underweight. The convention will not meet again until Monday.

LANDIS TO BE BEST MAN

Judge Will Be Best Man at Son's Wedding Today.

Chicago, Sept. 19.—Judge Kenesaw Mountain Landis of the federal court will be the best man at the wedding here tomorrow of his son, Major Reed Landis, American "ace" who scored 12 victories over German fliers, to Miss Marion Keehn of Kenilworth. Miss Keehn is the daughter of George W. Keehn, Chicago banker.

BANDITS MURDER ONE

Shoot Man Who Attempts to Give Warning of Robbery.

Grand Rapids, Mich., Sept. 19.—Shooting and killing one man who attempted to give warning, automobile bandits today held up a branch of the Grand Rapids Savings bank, and escaped with several thousand dollars.

VETOES TONNAGE TAX BILL

Minnesota Executive Vetoes Bendixen Measure at St. Paul.

St. Paul, Sept. 19.—Gov. Burnquist today vetoed the Bendixen tonnage tax bill passed by the state legislature. The bill levied a tax of five per cent upon the value of ore at the mouth of Minnesota mines.

MAY PASS AMENDMENT

Republican Leaders Claim Sufficent Strength

Will Attempt Passage of Amendment Giving U. S. Equal Voting Power With Great Britain

WASHINGTON, Sept. 19.—After the covenant of the league of nations, a part of the German peace treaty, had been read late today in the senate, Republican leaders claimed votes enough to pass, probably next week an amendment which would give the United States equal voting power with Great Britain in the league assembly.

While confident the amendment will be adopted the Republicans hold that it would not reopen the whole question of peace and force the return of the pact to the peace conference at Paris as President Wilson and Democratic leaders have predicted. There will be no session of the senate tomorrow but the fight will open in earnest, with prospect of a vote on the British-American amendment proposed by Senator Johnson, Republican, of California, by the end of the week. Telegrams were sent on Thursday to Senator Johnson urging his immediate return here but today Senator Lodge, chairman of the foreign relations committee, in charge of the treaty on the floor and Senator Knox, Republican of Pennsylvania, telegraphed him that he might proceed with his western trip.

It was assumed by Republicans tonight that Senator Johnson would continue his speaking trip. As he is paired with Senator Martin, Democrat of Virginia, on all treaty votes except final passage he would not be able to vote for his amendment, altho his friends said he would be prepared to make a hard fight for its adoption.

Believes All Will Be Rejected.

Senator Hitchcock, of Nebraska, leader of the administration fight for ratification continued steadfast in the belief that all amendments would be rejected. Democrats made no attempt to disguise the feeling of elation that their cause was in good shape, citing the hurry call sent to Senator Johnson as evidence of doubt in the opposition camp. It was while they were still discussing this phase of the situation that word reached them of the message to Johnson to stay on the trail of the president.

Denunciation Applauded.

For three hours today the treaty had the right of way, starting with a denunciation of its league covenant by Senator Wadsworth, Republican of New York, which was applauded by crowded galleries.

Upholds Administration.

Senator Nelson, Republican of Minnesota, belonging to the "mild" reservation camp, attacked the reservation reported out by the foreign relations committee relating to the refusal of this nation to assume foreign territorial guarantees without sanction of the congress under article ten. Senator Nelson upheld the right of the government to send and keep American soldiers in Russia thus taking issue with Senator Johnson, Borah and other Republicans who have been fighting to get them home.

Under British Domination.

Senator Wadsworth in an attack on the league covenant declared it would place this country under British domination and if it had been in existence at the time of the revolutionary war it would have sent every European nation at the throat of France because of the aid France gave the American colonies.

Reed Was Not Prepared.

Altho he had expected to speak today, Senator Reed, Democrat of Missouri, an opponent of the league today told the senate he was not prepared and would speak on Monday.

Few Senators Wait.

With the formal addresses out of the way Senator Hitchcock called for the formal reading of the pact and when the senate adjourned it had heard the last article of the league covenant, with less than a score of senators present.

Article 16 Reached.

When Article 16 was reached with its committee amendment relating to disputes in the league assembly, and their handling, Senator Lodge asked that it be passed temporarily. There was no objection but Senator Hitchcock first obtained from Senator Lodge assurance that it could be taken up next week at any time either side desired, exactly as is the case with the Johnson amendment. There was no intimation as to when the call would come.

Refuse to Consider Shifting.

Republican leaders refused today to consider shifting the British-American voting amendment under the head of reservations, Senator Lodge announcing that they would stand out for amendments and reservations as written in the majority report. Again there was more or less informal discussion among senators in the hope of reaching a compromise, but as word passed back and forth that the first actual test of strength would come, possibly within a week, leaders on both sides held back to await developments.

CARPENTER'S GET $1 AN HOUR AND END STRIKE

CHICAGO, Sept. 19.—Chicago's building strike and lockout which for more than two months had made idle more than 100,000 workers and halted construction contracts aggregating $50,000,000 was announced as ended tonight when the construction employers yielded to the demands of the union carpenters for $1 an hour.

Work on the held up projects, it was said tonight would start next Monday after a cessation on July 9, when the carpenters went on strike. On July 18 the construction employers declared a lockout and the whole building movement except for a few contracts in scattered sections of the city, came to a halt just as it had gathered momentum after the war.

Building material dealers joined with the contractors and stopped the sale of supplies in order to make the tieup complete.

As a result lawyers for the strikers made complaints, hearings on which still are pending, charging the employers and material dealers with conspiracy.

The whole building business was in a ferment over wages all year. The resumption of building in the spring brought on demands for increased wages by all classes of workers and all of them received concessions. One by one the disputes were settled until the carpenters insisted on $1 an hour. They received 80 cents an hour. An offer of 92½ cents finally was made by the employers as their last word and since then both sides had exchanged ultimatums, had held conferences and a referendum and listened to mediators without change.

MAKES STARTLING CHARGES

Asserts Government Foodstuffs Bought Up by Big Interests

Chicago, Sept. 19.—Huge quantities of government canned goods fell into the hands of packers, wholesale grocers and retailers and thereby prevented post office authorities from filling orders filed by consumers, William Mulvihill, attorney for the city bureau on foods, markets and farm products, charged at the city's investigation into the high cost of living. Approximately $145,000 worth of food was sold thru the Chicago post office and only part of two very small orders have been delivered to the postmaster, W .B. Carlile, post master stated today.

The canned goods "is being stored away until the public has forgotten there ever was a promise of army goods at less than one half of the present retail prices" Mr. Mulvihill asserted. Then it will be placed on shelves and retailed at profits that are appalling."

A promise of deliveries thru the post office commencing with September 3, made by Col. James P. Castleman, was the only information he had received on the whole matter Mr. Carlile said.

The retail grocers at the meeting admitted that their stores had sold army canned goods at more than one hundred per cent profit. Each of the grocers sought to convince the authorities that only a few cans had been sold and that those sales were made by clerks who acted without instructions in selling the goods. They asserted that inspectors for the city food bureau were the only persons to whom sales had been made.

WILL ENTER POLITICS.

Anti-Saloon League to Get Into National Game Immediately.

Chicago, Sept. 19.—The Anti-Saloon League of America will enter national politics immediately, it was announced today to enforce the demand that the political parties next year nominate candidates for president who are openly pledged to unreserved enforcement of the prohibition amendment to the federal constitution.

This course was decided by the executive body of the league at its final session of the conference with state presidents of the league.

Heretofore the league, working by states, has confined its activities to state legislatures and has not entered into partisan politics.

POSTMASTERS ELECT

Choose Officers for Year—Will Meet Next in Minneapolis olis.

Detroit, Mich., Sept. 19.—The National League of Postmasters today selected Minneapolis as next year's convention city and elected the following officers:

President—George D. Duscher, Jr., Niles Center, Ill.; vice presidents, D. E. Clow, Ellsworth, Mich.; Thereas Kaas, Egan Minn.; R. Gwinn, Hedgun, Idaho; George W. Smutt, Kewaskun, Wis. and named a member of the executive committee.

The organization includes only third and fourth class postmasters.

STATE CLOSES CASE

Five Negroes Charged With Murdering Rock Island Man.

Chicago, Sept. 19.—The state closed its case today in the trial of five negroes charged with murdering Harold Brignadello of Rock Island, Ill., during the race riots last July. Two of the defendants are women.

FIRE PREVENTION DAY

Governor Lowden Issues Proclamation Designating Oct. 9th.

Springfield, Ill., Sept. 19.—Governor Lowden in a proclamation issued here today designated Thursday, October 9, as fire prevention day in Illinois when the attention of the citizenship will be called to the need of reducing fire hazards and loss from fires.

RECOMMEND REDUCTION

Farmers Advised to Reduce Wheat Acreage Fifteen Percent

Washington, Sept. 19.—A reduction in the acreage to be sown to winter wheat this fall of approximately fifteen per cent from last year's acreage was recommended to the farmers of the country today by the department of agriculture.

This reduction, which would mean a total of about 42,000,000 acres this year, was recommended, it was said on the basis of prospective conditions of world supply and demand, as judged by specialists of the department who were sent abroad to report on the crop status of the European countries. With the added recommendation that 20,000,000 acres be sown to spring wheat in 1920, a reduction of 12 per cent from the 919 spring sowing, the department said this would mean an aggregate production in 1920 of approximately 830,000,000 bushels or equal to the average yield for the five years from 1915 to 1919, inclusive. This average was taken as a s afe guide for American farmers. It was estimated that it would leave a surplus of about 200,000,000 bushels for export.

Should Reduce Rye Acreage.

Reduction of approximately 12 per cent in the acreage to be sown to winter rye was said by the department, which estimated that from five and a half to six million acres, as compared with 6,800,000 sown last fall would be sufficient to meet an anticipated domestic consumption of fifty million bushels and leave 25,000,000 bushels for export. It does seem probable, the department said, that exports next year will exceed thel atter figure.

In considering prospective exports in both wheat and rye the report said the possibility of existing conditions of international exchange and greatly increased transportation costs turning foreign countries to other markets than the United States or stimulating their own production cannot be disregarded.

No Material Decrease.

The department predicted exports of dairy products would show no material decrease for several years in view of the depletion of European herds. While it was said to be impossible to forecast the country's foreign trade in meat and meat products generally, it was predicted that exports in pork would be greatly in excess of pre-war exports for at least another year.

BOTH DUELISTS KILLED

Revolver Duel on Streets of Memphis Results Fatally for Both Contestants.

Memphis, Tenn., Sept. 19.—O. W. Webster, a deputy United States marshal and William Schmiddy, a former city detective were killed and a negro bystander was wounded in an exchange of shots between Webster and Schmiddy near the center of the downtown shopping district here today.

Webster was passing in an automobile, the police say, and over hearing a remark suposedly from Schmiddy, he stopped his machine and the fight followed.

PETITION FOR INCREASE

Rockford Traction Co. Wants Seven Cent Fare

Chicago, Sept. 19.—A petition for an increase in fares to 7 cents was filed with the Illinois Public Utilities Commission today by the Rockford City Traction company. The present fare is 6 cents, or 9 tickets for 50c. A 25 per cent increase in wages had produced a deficit in the company's finances according to W. C. Sparke, general manager.

The matter was taken under advisement by the commission.

FIGHT FAST BOUT.

Baltimore, Sept. 19—Joe Lynch of New York fought 12 fast rounds here tonight against Frankie Mason of Fort Wayne.

CHAMPION O'DOWD WINS

St. Paul, Minn., Sept. 19.—Middleweight Champion MikeO'Dowd of St. Paul outfought Soldier Bartfield of Brooklyn in a ten round bout here tonight.

PREPARE FOR BIG TEST

Walkout of Steel Workers to Come Monday

Both Organized Labor and Capitol in Steel Industry Confident of the Strike's Outcome

PITTSBURGH, Pa., Sept. 19.—Preparations for the test of strength between organized labor and capital in the steel industry thruout the United States, to begin on Monday, went forward today with both sides apparently confident of the outcome. There were no official statements forthcoming from either side but informal talks indicated that they were ready for the contest.

Intend to Operate Monday.

Representatives of steel companies in the Pittsburgh district let it be known that they intend to operate their plants on Monday and also let the impression go out that they do not look for as large a walkout as the union leaders assert will take place. Organized labor expects a big turnout of men and predicted that the employers will receive the surprise of their lives. Neither side will venture figures. Both frankly confess they do not know how many men will remain at work or fail to answer the whistle—Monday only can tell they said.

Companies Canvass Men.

Steel companies in many cases are understood to have canvassed their men to get an idea of the number of men who will strike. Union leaders said that from their experiences these canvasses usually prove inaccurate. It was said tonight that in a number of plants some men have already quit and sought work in other places. It was expected by union leaders here that many men on the night shifts tonight will take their personal belongings out of the mills at quitting time tomorrow morning as many of them do not work Saturday and Sunday nights.

Making Final Plans.

All the national leaders of unions involved in the strike had left the city tonight for their respective headquarters to make final plans for the strike and much of the activity about the offices of the steel workers' national committee had to do with the preparations in the Pitsburgh district.

While national headquarters are in this city, in charge of William Z. Foster, secretary of the national committee it was learned, thatmuch of the work will be conducted by districts.

Ask Non-Union Mills to Strike

Reports of strike developments wil be made to these districts and if important enough will be forwarded to national headquarters. Mr. Foster said that all men in non-union mills have been asked to strike. None will be left to preserve c ompany property such as keeping up furnace fires and prevent ore from cooling he said. "The companies have had twelve days' notice of the strike," he said, "and if they have not arranged to look after their furnaces it is not our fault."

Will Affect 90,000 in Chicago.

Chicago, Sept. 19.—Union leaders tonight said 90,000 steel and iron workers in the Chicago district would be affected by the strike set for Monday.

Preparations for the walkout went forward with declarations by union officials that no settlement of the controversy was in sight.

John H. DeYoung, secretary of the district strike committee, said the estimate of 90,000 workers was based on the number of workers employed in Chicago, South Chicago, Gary, Ind., Indiana Harbor, East Chicago, Hammond, Ind., Waukegan, Joliet, Milwaukee and Kenosha, Wis.

Figures could not be obtained from the steel companies, but an unofficial list placed the number in South Chicago, Gary, Indiana Harbor, East Chicago, Hegeswisch and Hammond at approximately 70,000. The list tabulated twenty plants in Chicago employing 24,000 men, six plants in Gary employing 20,000, eight plants in Indiana Harbor with 14,000, three plants in East Chicago with 2,250, two in Hegeswisch employing 2,250 and six in Hammond with 4,750 employes.

Plans Laid for Walkout.

A meeting of the district strike committee was held today and plans were laid for the walkout. Union officials counseled the men to prevent disorders and remain away from the plants after Monday.

Company officials were said to be exerting every means to hold the workers at their posts. They would not say however, whether the plants would attempt to operate in the event the strike went into effect. It was asserted by some union members that certain companies were placing cots in their plants and that large supplies of food were on hand to care for workers who did not join the walkout.

CHARGED WITH LARCENY

Chicago, Sept. 19.—Mary Mac[illegible] held to the grand jury today in bonds of $3,000 on a charge of larceny as bailee. She was accused by a modiste of refusing to return gowns valued at $1,025 for which she had failed to pay.

BULGARIA GIVEN TREATY

Document is Presented to Bulgarian Mission at Paris.

Paris, Sept. 19.—The treaty of peace between the allied and associated powers, and Bulgaria was presented to the Bulgarian mission at the French foreign office this morning.

After the delegates had assembled Georges Clemenceau, president of the peace conference spoke briefly in opening the session. He was followed by General Theodoroff, head of the Bulgarian mission.

Not Responsible for War

M. Theodoroff said the Bulgarian people were not responsible for the war but the Bulgarian government had thrown the country into the struggle. He realized, however, he said, that the people must share the responsibility. "They are willing to do so," he said "but they feel that in no way have they committed such a crime as will compel them to accept servitude."

King Ferdinand and Vaseil Radoslavoff, Bulgarian foreign minister in 1914, were blamed for Bulgaria's entry into the war by M. Theodoroff. He said the Bulgarian people did not approve of the German alliance, which he declared "came to them as a cataclysm" but they realized them must accept part of the responsibility.

"No Crime Can Justify Servitude"

"We have committed faults," he said, "and we shall bear their consequences within the bounds of equity but there is a punishment no crime can justify and that is servitude."

Each of the 27 governments participating in the conference including Roumania were present. Frank L. Polk, head of the United States delegation sat on M. Clemenceau's right and Sir Eyre Crowe the new British plenipotentiary to the peace conference sat on the premier's left.

The Bulgarian delegates, M. Theodoroff, M. Ganeff, M. Sakesoff, M. Stambuliwsky and M. Harsoff, entered after the other delegates, who rose when the enemy representatives appeared.

Twenty five days are allowed Bulgaria to present observations on the treaty terms.

CALLED TO TESTIFY.

Milwaukee Brewery Representatives Before Judge Landis.

Chicago, Sept. 19.—Representatives of four big Milwaukee breweries were called before Judge K. M. Landis in federal court here today to testify as to their knowledge of beer smuggling between Milwaukee and Chicago.

Officials of the Schlitz, Val Blatz, Miller and Pabst breweries drivers of confiscated trucks hauling beer, and officials from a number of towns near the Illinois state line were to testify in the case.

Earl W. Caperson, a constable from Zion City told of confiscating 15 trucks and one touring car loaded with beer as they entered Zion City, the community founded by the late John Alexander Dowie.

George Remus, attorney for the truck drivers objected to Caperson's testimony that the trucks contained beer but Judge Landis over-ruled the objection, saying, "a constable in this year of Our Lord, 1919, knows what beer is."

BACHELORS ARE WARNED.

Five Thousand British Women Coming Over for Husbands.

New York, Sept. 19.—Five thousand well-to-do British women determined to obtain American husbands soon will arrive in the United States according to a warning issued to bachelors today by Mrs. S. C. Seymour of Camden, N. J., who has just returned from Europe. Mrs. Seymour was employed by the military authorities to supervise the transportation of the war brides of American soldiers in different parts of Europe. She announced the matrimonial army of invasion had already applied for passports and would arrive as soon as the present restrictions are lifted, which is expected to be on October first.

AGED ROBBER CAUGHT.

Seventy Five Year Old Bandit Captured at Aurora

Auora, Ill., Sept. 19.—Joseph Wheeler, 75, Detroit, the white haired old man run to earth yesterday with three robbers at Kaneville, Ill., by rural police and farmers, who sought the bandits with shot guns has more than a becoming modesty, the police assert, in describing himself as "a mere tramp who had been given a lift by the automobile bandits." The criminal records disclose, they say, that Wheeler is an old safe blower. He carried a gun when captured. His legs are all scarred, apparently from old bullet wounds.

AT PERSHING FIELD TODAY

Athletes Will Compete in National All Around Championships

Jersey City, N. J., Sept. 19.—Eight of America's best all-around athletes will compete here tomorrow at Pershing Field in the amateur athletic union's national all around championships, the premier competition held by the organization. In addition Joie Ray, national one mile champion, will endeavor to lower Mel Shepard's world mark for 1,000 yards.

WILSON AT SAN DIEGO

Addresses Crowd of 40,000 Which Fills Stadium

Declares That in Framing League Covenant Advice of Roosevelt, Lodge and Others Followed

SAN DIEGO, Calif., Sept. 9.—An extract from a magazine article written in 1914 by Theodore Roosevelt was read by President Wilson in an address here today as an argument in favor of the league of nations. Speaking to a crowd which filled the San Diego Stadium with a seating capacity of 40,000, the president also quoted from Senator Lodge, one of the strongest opponents of the treaty, and declared that in framing the league covenant the Versailles conference had followed the advice of these and other Republican statesmen.

"I am glad to align myself with such utterances," Mr. Wilson said. "Here in concrete form is the fulfillment of the plan they advocated."

Many Unable to Hear.

The address was interrupted many times by applause. The president's words were carried out to the distant rim of the stadium by means of an electrical device. Only part of those present could hear him, however, and before he finished there were many empty seats.

San Diego gave the president a noisy welcome on his arrival, factory whistles shrieking while the party passed thru the streets.

When he entered the stadium, the crowd stood and cheered, each person waving a small American flag. In the center of the horseshoe several hundred girls dressed in white were so seated as to spell "Welcome."

Voting Power a Delusion.

The president discussed at length the objection of treaty opponents that the British empire might have a preponderance of voting power in the league assembly. It was a delusion, to be frightened at any such prospect, he said, because there could be no important action by the assembly without the concurrence of the American representative.

Largely a Debating Body

The assembly, Mr. Wilson asserted was largely a debating body and as such it was only fair to give membership to the British colonies. It would be unjust he said, to give votes to the small independent nations and exclude such great dominions as Canada.

Do Not Know the Truth.

Declaring the people had not been told the truth about what the treaty contained, Mr. Wilson added that if the American public did know the truth, no man would have the audacity to take the risk of trying to impair such an effort toward liberty and justice.

Praises Labor Features.

Praising the labor and self-determination features of the treaty the president declared that without the league of nations the other peace terms would not be worth the paper they were written on. It was a final decision which the United States now must make, he added. Some of the changes proposed in the treaty, the president said, seemed to have it as their object to upset the theory of equality among nations and put the United States in a position of privilege. He declared that to go into the league without assuming an equal responsibility would be a mockery.

"I will not join," he said, "in claiming in the name of justice and unjust position for the country I love and cherish. Neither am I afraid of responsibility. Neither will I scuttle. I will not be a party to belittling America."

The Arbitration Feature.

Emphasizing the arbitration feature of the covenant the president said an example of the efficiency of discussion was shown in labor controversies. He asserted that whenever either side to such a controversy refused to discuss its case the presumption was that it was on the wrong side. It would be the death warrant, of the children of the country, the president declared, should the league fail.

There is nation-wide agitation extending from New York to San Francisco against Sunday funerals. Ministers and undertakers are co-operating with labor organizations and fraternal societies in this general movement.

Jacksonville long since became identified with this movement and the Sunday funeral here is now the exception. The movement has many reasons to commend it.

THE SANE MARKET PROPOSAL.

The advice that Secretary Thompson of the agricultural association has given farmers that they wait for a sane market before shipping grain or livestock reminds one that there may be advantages both to the farmers and the public if this advice be heeded.

At the rate shipments are being made into the big markets during the past two weeks a shortage would certainly follow in the coming months, and a shortage without the aid of market manipulation means higher prices. That condition always follows a period when half fat livestock is shipped to the market.

THE PARTING OF THE WAYS

President Wilson and Samuel Gompers seem to have come to the parting of the ways on the issue as to whether or not policemen should have the right to become affiliated with the federation of labor and have the right to strike. There is much more than appears on the surface on this police organization movement, for there are reasons to believe that the next move would be to organize the army on the same basis. During the war time Mr. Gompers' services to the government were of distinct value, but along many lines his ideas are entirely too radical for the average American and a break with the president at some time or other is almost inevitable.

PLEDGES AND PRESIDENTIAL CANDIDATES.

Dry leaders declare that the Anti-Saloon league will have an active part in national politics in the next campaign and will be against any candidates who do not declare openly in favor of liquor law enforcement. The league has accomplished a great work in the past and the danger now is that the sponsors, flushed with success, may overstep the mark and seek too wide an influence.

Certainly neither great party will seriously consider any man for the presidency who is not in favor of enforcing the provisions of the constitution and the laws the people have enacted. It is not necessary to require pledges from presidential candidates on the course they will follow with reference to law enforcement.

DEPENDENT ON UTILITIES.

For several hours in the late afternoon and early evening Thursday people in the business district of Chicago were dependent upon candles for light and there was little or no movement of street cars. Imagine being in a twenty story office building with the elevators out of commission and no artificial light except that from candles. The cause is said to have been an overloaded cable, with the result that it was burnt out. The situation simply served to give further emphasis to the public dependence upon utilities. There are certainly reasons why utility companies should be allowed a reasonable return upon their investment or else the utility rights should remain vested in the people.

A LITTLE PREMATURE

So many statements are getting into the press these days about the business irregularities that will be proven against the packers that one is inclined to be a little doubtful about the result of the government prosecutions. It is all right to try cases in the newspapers but to "try" them in advance and to state all the things that will be shown and proved strikes one as premature. It has been so with other prosecutions against the packers, for these inquiries and prosecutions have been going on thru years. Certainly if all the things charged by the government prosecutors can be proven there will be no trouble about convictions.

IT'S UP TO MAYOR THOMPSON.

Mr. Brundage is anxious that the laws of the state shall be enforced and since he has been attorney general has actively cooperated with state's attorneys in a number of counties for law enforcement. However, the attorney general does not propose to be made the goat in the Chicago situation, where church organizations and ministerial bodies are declaring that there is the greatest laxity with reference to the enforcement of liquor laws.

Mr. Brundage says that there is ample power in the hands of the mayor thru the police chief and his 4,000 policemen to see that these liquor laws are observed and that there the obligation rests. Mr. Brundage is not entitled to criticism in this position.

AN IMMIGRATION SUGGESTION.

According to a statement by Capt. Harmon yesterday, in the training camps during the war period there were thousands of foreigners who had long been resident in this country and when the opportunity was given for filing final papers for naturalization declared their intention to later return to European homes. They thus escaped military service, for which some of them had been in training for many months.

That situation suggests the need for a law providing that foreigners who remain in this country for a stated period of years and enjoy the protection of the government and whatever prosperity there is here, must become citizens or else return to those countries from which they came.

This is only one of the reasonable restrictions which should be placed on immigration.

REASONS FOR APPROVING BONDS.

Two weeks from next Tuesday Oct. 7, the people of Jacksonville will vote on the question of issuing bonds in the sum of $210,000. If bonds are authorized $130,000 will be used for the payment of the floating indebtedness; $50,000 or whatever is needed of that amount for the building of a filtration plant, and the remaining sum will be utilized for moving the light plant to the south pumping station.

It is admitted that the city's debts should be paid and it is admitted that they must be paid, otherwise creditors who have long been lenient will bring suit. There is general acceptance of the fact that the new water reservoir will not be complete without the addition of a filtration plant which will make the water pure and available for drinking purposes. It is estimated that when the light and pumping stations have been consolidated that an annual saving of at least $5,000 can be made.

One of the heaviest expenses in connection with the light and water departments as now operated is for the haulage of coal. Under the proposed plan the haulage cost can be eliminated and the city can buy coal direct from the mine operators and save the dealer's commission.

Certainly there are strong and urgent reasons for favorable action by the people on the proposed bond issue. Between the present and election time there should be a full discussion of all questions relating to the bond issue and it is the desire of the city council and of the joint committee and city council members that there should be a full discussion and that the people make inquiry about any point on which there is doubt.

What is Rheumatism? Why Suffer from It?

Sufferers Should Realize That It is a Blood Infection and Can Be Permanently Relieved

Rheumatism means that the blood has become saturated with uric acid poison.

It does not require medical advice to know that good health is absolutely dependent upon pure blood. When the muscles and joints become sore and drawn with rheumatism, it is not a wise thing to take a little salve and by rubbing it on the sore spot, expect to get rid of your rheumatics. You must go deeper than that, down deep into the blood where the poison lurks and which is not effected by salves and ointments. It is important that you rid yourself of this terrible disease before it goes too far. S. S. S. is the blood purifier that has stood the test of time, having been in constant use for more than fifty years. It will do for you what it has done for thousands of others, drive the rheumatic poisons out of your blood, making it pure and strong and enabling it to make you well. S. S. S. is guaranteed purely vegetable, it will do the work and not harm the most delicate stomach.

TAXES

Uncle Sam's as slick as wax is, and he's in a class alone; when he asks me for my taxes, I dig up without a groan; oh, I dig the hard-earned money, put it in a sack of gunny, and with smile serene and sunny, carry him the buck and bone. And I'd do it still more gayly if he didn't waste it so; people tell me hourly, daily, that our Uncle burns the dough; he blows in the precious roubles like a drunkard blowing bubbles, caring little for the troubles that their earning made us know. It it wrong, O Uncle Sammy, all our struggles to forget; for the dollars, cold and clammy, we have earned in toil and sweat; you are welcome, when you need 'em, in the sacred cause of freedom, but you really shouldn't feed 'em to the cows, already yet. We have earned them at the forges, we have earned them pitching hay; we have earned them digging gorges in the hard, unyielding clay; we have earned them digging 'taters, we have earned them steering freighters, and it jars us to our gaiters when you throw the scads away. Uncle, let there be an ending to the carnival of waste; quit this jamboree of spending, quit it all, with seemly haste; save the taxes and the wages, so that on the shining pages of the works of future sages, your redemption may be traced.

LITERARY SOCIETIES BEGIN YEAR'S WORK

Phi Alpha and Sigma Pi Hold First Meetings of School Year. —Good Program Given.

The two literary societies of Illinois college began the new college year under very favorable auspices. Both were well attended and there was much enthusiasm and society loyalty which bodes well for the institution, the societies and the members. Probably no student, freshman or senior, realizes the great value of the societies to the member who does his duty. Many former students have said that the experience and drill they received in the society was worth as much as all the rest of the college course.

Phi Alpha.

The society room was filled when President Bast called for order and the business of the organization proceeded. Secretary Emil Wells called the different numbers as follows:

Essays: Wilson, "Old Phi Alpha." Theis, "The Steel Age."

Declaimers: Bown, "A plea for the Defense." Wells, 'A Plea for the Prosecution." Hegstrom, "Pleading Extraordinary."

Orator: Thompson, "Gloomy Outlook."

Akers, LaRue, Thompson and Stevenson were voted back into active membership.

Newton Wood was received as a new member.

The society then adjourned to the club room for a social time.

Sigma Pi.

Sigma Pi society last night held its first meeting of the school year. The society starts out afresh after the ravages of the past two years with a membership of 21.

The literary program was as follows:

Declaimers: Thurman, "Two at St. Peter's Gate." Adams, "Kipling's "The Ladies."

Reading: Rogers, "Red Book Editorial on Progress."

Reading: Strickler, "The American Legion."

Essayist: Capps, "Friends." Shoemaker, "Religious Traditions."

Extemporaneous talk: Everett Whisler, "We and Our Friends."

There was no debate and no business session. Instead the members and visitors convened to the smaller room for a rousing smoker and song-fest. Later several members and loyal alumni of the society made up a short program of inspiring talks. Mr. T. P. Carter, as toastmaster, introduced Dr. Norbury, Allan Smith, H. H. Bancroft, Worthington Adams, Geo. Deweese, Prof. Peague, the faculty visitor; Fred Bray, Edward Bullard and Coach W. T. Harmon.

DEATHS

Haynes.

Ralph R. Stringam received a telegram yesterday announcing the death of his brother-in-law, Joseph E. Haynes, which occurred at his home in Peoria Friday morning. He had been in poor health for over a year. He is survived by his widow who was formerly Miss Fannie Stringam of this city and two children. The funeral will be held in Peoria Monday afternoon. Mr. and Mrs. R. R. Stringam will go to Peoria Sunday afternoon to attend the services.

With the Sick

Miss Isabel C. Baldwin, who has been a patient at Passavant hospital for some weeks with typhoid fever, is improving nicely and hopes to be able to return to her home in a week or two.

Mrs. Lois Lavery is quite ill at Our Savior's hospital. Mrs. Lavery is a daughter of Thomas Bond of Franklin precinct.

WORLD WAR VETERAN HERE FOR VISIT

Presley Kent Injured Hand When He Reproved Insolent German.

Presley O. Kent, veteran of the world war, is now a guest at the home of his sister, Mrs. George L. Riggs on East College street. After a short visit here he will go to the home of his parents, Mr. and Mrs. Kent, in Nortonville precinct. After a rest there he expects to proceed to Muskogee, Okla., to take a railroad position.

This soldier had the honor of membership in "Pershing's Own," altho he did not take part in the New York or Washington parades. That fact happened in this way: A German soldier declined to remove his hat when the band played the Star Spangled Banner, Kent carried out explicitly his instructions to have the flag respected. He struck the insolent offender on the chin and with such force that a bone in his hand was broken. This happening was at Grenzhausen, Germany. It can readily be understood that the action brought commendation instead of reproof from officers, and it was because of this injury to the hand that the soldier was excused from participation in the eastern parades.

Before the war began Mr. Kent was living in Columbus, Ohio. He is glad to have had this part in the great conflict but is also mightilyy pleased to be in the home country once more.

Social Events

Gleaners Class Meets With Mrs. Bridgman.

The Gleaners Sunday school class of Ebenezer church held their regular meeting Wednesday afternoon with Mrs. Earl Bridgman. After the usual business session an interesting program was given, followed by a social hour during which refreshments were served. The next meeting will be held with Miss Pearl Bridgman.

Miss Hackett Honor Guest at Garden Party.

Mrs. G. C. Guthrie was the hostess Friday afternoon at a garden party given at her home on Park street in honor of Miss Ruth Hackett whose marriage to Mr. John Mitchell is to be observed in October. Twelve of Miss Hackett's more intimate friends were the guests and the hours from 4 to 6 o'clock were delightfully spent. The color scheme was yellow and white and garden flowers in great profusion were used in decorative baskets to secure this effect. The refreshments were in accord with the other hospitable details.

Assisting Mrs. Guthrie were Mrs. John S. Hackett, Mrs. Charles Hackett, Mrs. P. C. Thompson and Mrs. Thomas Heaton.

Redshaw Family Reunion.

The annual Redshaw family reunion was held at the beautiful and hospitable home of Mr. and Mrs. George W. Hogan at Winchester, Sunday, September 14th, 1919. The guests began gathering about 11:30 o'clock and from that until 12:30 was spent in happy greetings which shows the wonderful love and affection of the Redshaw family to each other.

At one o'clock Miss Ruth Funk, Mrs. Harry O'Donnell, Mrs. Harlan Redshaw and Miss Lena Northcutt anonunced dinner. As the guests entered the dining room they beheld a most beautiful sight. One table was decorated in yellow and white in the dining room and in the adjoining room with the French doors open betwetn was another table in lavander and white. A most bounteous dinner was served, which the Redshaw ladies are noted for. As the waiters kept passing to and fro from the kitchen with good things to eat the guests began to wonder if there was an end, and finally a motion was made and properly seconded they be left alone for a time to eat and later take a new start.

The kitchen and good eats were ably managed by Mrs. George W. Hogan and it is very generally known Mrs. Hogan is never lacking when it comes to good cooking. She was assisted by Mrs. William Middendorf, Mrs. John Y. Funk, Mrs. William Redshaw and Mrs. A. J. Redshaw. The afternoon was spent in music and social good time. Several pictures were taken of the family group which will be looked upon with pleasure as the years go by. It was an ideal day with the exception of the dust and all made the trip by automobile, and will long be remembered as Mr. and Mrs. Hogan are royal entertainers and special credit is due Mrs. Hogan for the capable management of the affair which afforded so much pleasure. The day c ame to a close before the happy party was aware of the fact and as the evening shadows were falling all departed for their home heartily thanking the host and hostess for the pleasant day spent in their home, and with a hope to all meet on the same occastion in 1920.

Those present were: Mr. and Mrs. Richard Allyn and grandchildren, Mabel and Paul Redshaw, Modesto, Ill.; Dr. and Mrs. Paul Allyn and son Richard and Dr. W. H. Allyn, Waverly, Ill.; Dr. and Mrs. Robert Little, daughter Helen and son Robert of St. Louis, Mo.; Mr. and Mrs. Harry Crane and sons Richard and John Crane, Carlinville, Ill.; Mr. and Mrs. T. B. Smithson, Dr. and Mrs. B. F. Webster, Mr. and Mrs. Harry O'Donnell, Miss Lena Northcutt, Mr. and Mrs. George W. Hogan and nephew, Frank Redshaw, of Winchester, Ill.; Mr. and Mrs. William Redshaw and daughter, Eileen and sons Russell and Floyd Redshaw, Riggston, Ill.; Mr. and Mrs. John N. Funk and daughter, Ruth of Chapin, Mr. and Mrs. William Middendorf, Mr. and Mrs. A. J. Redshaw, and Mr. and Mrs. Haran Redshaw, Merritt, Ill.

When, round the bowl of vanished years
We talk with joyous seeming—
With smiles that might as well be tears,
So faint, so sad their beaming;
While memory brings us back again
Each early tie that twined us,
Oh, sweet's the cup that circled then
With those dear ones gone before us!

As travelers oft look back at eve
When eastward darkly going,
To gaze upon that light they leave
Still faint behind them glowing,
So, when the close of pleasure's day
No gloom has e'er consigned us,
We turn to catch one fading ray
Of joy that's left behind us.

FIRST GERMAN SHIPMENT

Steamer Reaches New York Laden With Toys, Glassware, Etc.

New York, Sept. 1.—Carrying 350 tons of toys, glassware and sugar beet seeds the Kerr line steamship Jason arrived here today from Hamburg with the first cargo shipment from Germany since the war. The Jason is a supply ship for the Hoover food administration. Seven stowaways, six of them Americans and one German, were aboard.

REFUSE TO LOAD ARMS.

Longshoremen Are Not Permitted To Load Shipment of Munitions

Seattle, Wn., Sept. 19.—Business agents of the local longshoremen's union, backed, it was said by approval of the Central Labor council, have refused to allow longshoremen to load a shipment of arms and munitions destined for Siberia on the shipping board's Steamer Delight, it became known today. The labor agents held the handling of such material was in violation of the labor section of the peace treaty. Operators of the vessel said the shipment would be loaded.

ARE FOUND NOT GUILTY

Officials of Farmers Milk Concern Tried at Cleveland

Cleveland, Sept. 19.—Seven officials of the Ohio Farmers' cooperative Milk Co., on trial here for alleged violation of the Valentine anti-trust law, on indictments returned by the Cuyahoga county grand jury investigating the high cost of living in Cleveland were found not guilty by the jury verdict which was returned sealed last night and read in court this morning.

Former North German Lloyd Steamer Allotted to Line.

New York, Sept. 19. — The former North German Lloyd Steamer Prince Friederich Wilhelm, one of the fleet of the German merchantmen blockaded during the war and recently used as a naval transport to bring American troops home from France has been allotted to the White Star line for service on its New York-Cherborugh and Southampton route it was announced here today.

HOUSE REJECTS RIDER

Legislation Favoring California Fruit Growers is Defeated

Washington, Sept. 19.—Effort to have congress declare that anti-trust laws shall not apply to farmers' market associations having capital stock and also members other than producers was defeated today in the house.

Without a record vote the house rejected the legislative rider to a deficiency appropriation bill offered by Representative Barbour of California who declared the existing exemption of farmers organizations do not apply universaly. California fruit associations he pointed out were apparently excluded because of their capital stock and membership.

DECLINE TO COMMENT

Reported Visit of Baruch to See Gary Is Unconfirmed.

New York, Sept. 19.—Reports were current in the financial district that President Wilson had sent Bernard M. Baruch, former head of the war industry board, to see Chairman Elbert H. Gary, of the United States Steel Corporation to request him to meet a committee of steel workers in an effort to prevent the strike set for next Monday. Mr. Gary and Mr. Baruch refused to deny or confirm the report.

BETTING AGAINST SOX COSTLY

Chicago, Sept. 19.—Betting against the Chicago White Sox, potential champions of the American League, cost Herbert Brown, receiving teller for a local bank, his job and his liberty, for the $5,000 he lost belonged to the bank and he was arrested today. He admitted losing the money in a pool room where bets were placed on basebal games and said he started gambling with $200 of the bank's money, according to the police.

QUINCY MEN GUILTY

Quincy, Ill., Sept. 18.—Fred Wolf, Sr., and his son Paul Wolf, of the Wolf Manufacturing company, charged with conspiracy to defraud the government, were found guilty in federal court here tonight.

ATTEMPTS TO SPEED TRIAL

Judge Takes Hand in Questioning Prospective Jurymen.

Chicago, Sept. 19.—Because of the slow progress being made in obtaining a jury to try the eight indicted officials of the milk producers association, charged with conspiring to fix the price of milk, Judge Joseph Fitch took a hand in questioning the prospective jurymen today. Judge Fitch said it was obvious that some of the prospective jurors were attempting to evade service.

IRISH REPUBLIC LOAN

Subscriptions for Loan of £250,000 Are Opened Yesterday

Dublin, Sept. 19—Subscriptions for the Irish republic loan of £250,000 were opened today. No reliable data regarding the response is as yet available.

In advertising the loan large parcels of prospectuses are known to have been sent to local Sinn Fein agencies thruout the country for hand distribution, but many others were mailed in the British postoffice. There is some speculation as to whether the latter will be delivered or confiscated as illegal matter.

FAILS TO REACH VERDICT

Discharged Soldier of Davenport Will Have New Trial.

Chicago, Sept. 19.—The jury hearing the case of Clarence Jones, a discharged soldier of Davenport, Ia., charged with attempting to kill Frank King, a negro, during the race riots last July, was discharged today after failing to reach a verdict. The jury deliberated 24 hours. Jones will have a new trial.

BANDITS OBTAINED $100,000

Canadian Robbers Got Away With More Coin Than Supposed.

Quebec, Sept. 19.—The bandits who robbed the Ocean Limited mail car near Harlaka yesterday obtained $100,000 instead of $75,000 as first reported, it was established here today. The robbers have been reported in hiding near Harlaka and another report has them in Quebec.

WILL DEBATE MARCH'S RANK

Bill Proposing Permanent Rank of General to be Considered

Washington, Sept. 19.—At the request of Secretary Baker the house rules committee will meet next week to consider its bill proposing the permanent rank of general for Peyton C. March, chief of staff. The secretary asked Chairman Campbell today for a special rule, giving the March bill privileged consideration in the house. It was recommended for passage by the military committee by one vote and sharp opposition is expected on the floor.

BANDITS ROB MAIL CLERK

Obtain $25,000 from Clerk on Northern Pacific Train.

Seattle, Sept. 19.—At least $25,000 was obtained by a robber or robbers who bound and gagged a mail clerk on an eastbound Northern Pacific passenger train between Seattle and Kanasket, Washington, today, according to reports received here by the police and railroad officials.

RAIN POSTPONES RACES

Columbus, O., Sept. 19.—The first postponement of the Grand Circuit meeting came today when pacers in the 2:03, C. T. Dunkle event were scoring for the word. A heavy rain storm drove them to the barn and most of the program went over until Saturday. One heat had been reached in each the 2:15 pace and the 2:13 trot prior to the storm. Racing will start at 11:30 a. m. tomorrow.

TWO PLEAD GUILTY IN COUNTY COURT

In the county court yesterday, with Judge Samuell presiding, John Stanley entered a plea of guilty to the charge of bootlegging. The plea was accepted by the state's attorney and a fine of $100 and costs was assessed against the defendant. George Fanning also appeared and entered a plea of guilty and a fine of $50 and costs was assessed against him.

These men are minor offenders by comparison with some others whose cases have been in court, and it was not charged that they had regular places for carrying on liquor sales, but that they occasionally peddled liquor.

French Army Band Superb in "Arlesienne"

Bizet's exquisite "Arlesienne Suite" must have mightily appealed to these veteran bandsmen of the Marne, for they play it as if they love it. As in Bizet's opera *Carmen*, these melodies are strongly influenced by the composer's study of French and Spanish folk-music. On the back, "La Feria," an inspiring Spanish bull-ring march.

RECOMMENDATION OF COMMISSION OPPOSED

Club Owners of National League Oppose Abrogation of National Agreement — Favor Refraining Drafting from Minor Leagues This Year.

New York, Sept. 19.—Club owners of the National League at a special meeting here today declined to sanction temporary abrogation of the national agreement. The meeting was attended by Barney Dreyfuss, Pittsburgh; William H. Baker, Philadelphia; George W. Grant, Boston; H. W. Mason, treasurer; Judge Williams, St. Louis; C. A. Stoneham, New York, and Charles H. Ebbetts, Brooklyn.

In answer to the recommendation of the national commission at its meeting held in Chicago on Sept. 2, 1919, the following resolution was adopted:

"First:—That the National League does not concur in the recommendation by the National commission that the present national agreement be temporarily abrogated.

"Second:—That we concur in the recommendation of the National Commission that the National League refrain from drafting minor league players during 1919.

"Third:—That we do not concur in the recommendation of the national commission that the territorial rights of the clubs of the old International league be not respected in the future, unless its indebtedness to the national commission be paid on or before thirty days after September 2, 1919."

During the meeting there was discussion as to the appointment of a new chairman for the national commission in place of August Herrmann, president of the Cincinnati club and President Heydler went on record as favoring the selection of some man who had no interest financially or otherwise in any club.

COOPER'S WILD PITCH LOSES FOR PIRATES

Wild Heave Allows Two Runs to Score—Phillies Defeat Cardinals.

Pittsburgh, Sept. 19.—Both Nehf and Cooper pitched effectively today but the Pirates' wild pitch sent two runs over the plate and New York won 4 to 2. Fletcher's error paved the way for one of the local's runs, while Whitted's double and two outs scored the other. Heady base running by Kauff resulted in the fourth run for New York.

WHITE SOX ONLY NEED ONE MORE GAME TO WIN

If They Win One Out of the Seven to be Played Will Cop Flag Even if Cleveland Wins Every Game.

Chicago, Sept. 19.—Requests for reservations for the world's series games to be played in Chicago between the Cincinnati Nationals and the Chicago Americans are coming into the local club's headquarters at a rate which will surpass any previous world's series here. All requests for reserved tickets must be made thru the mail. No personal requests are being honored at the park. The White Sox have to win only one of their remaining seven games to cinch the pennant, even tho Cleveland should win all its remaining games. The finish then would be:

Club—	W	L	Pct.
Chicago	88	52	.629
Cleveland	87	52	.626

The reservations are being made for three games and each applicant is restricted to four tickets for each game. A force of workers today expected to be at work well into the night handling the mail. Thousands of letters with checks enclosed were received in the regular mail deliveries during the day and hunddeds of special delivery letters were brought to the park. A corps of workers has been busy since early morning following the announcement yesterday that reservations would be accepted at the park, opening the mail and entering the requests in the order in which they are received.

President Comiskey said that he expected the heaviest mail to come in the morning. From present indications, he said, every reserved seat will be sold in a short time.

All persons indebted to said estate are requested to make immediate payment to the undersigned.

Dated this 25th day of August A. D. 1919.

GEORGE W. LOCKHART,
Administrator.

STEEL STRIKE DOES NOT AFFECT STOCKS

New York, Sept. 19.—Apart from its frequent pauses and the heavy selling movement at the close, today's stock market received with apparent indifference the news that the labor leaders had ordered a general strike of the steel workers.

Reports and gossip current in the financial district hinted that joint action might be taken by representatives of capital and labor to postpone or defer the proposed walkout.

Prices were irregular at the outset, soon developing moderate heaviness but reversals were overcome when the shorts found that stocks were not pressed for sale.

For the balance of the session until the final half hour the market moved sluggishly but with a confident undertone, the so-called "strike' 'stocks holding firm when not comparatively strong.

United States Steel moved within a narrow area most of the time, but made its low record of the week towards the end, declining to 101 1-2, a loss of 1 3-8. Allied shares reacted to the same extent. Sales amounted to 775,000 shares.

The market for liberty bonds was again active and strong, second 4 1-4s making a substantial gain with the fourth 4 1-4s and the second 4s.

Reports that the government was buying in some of these issues lacked confirmation. Railroad and industrial bonds were irregular. Total sales (par value) aggregated $18,350,000.

AGAINST RATIFICATION

Paris, Sept. 18.—Jean Longuet, leader of the minority Socialists addressing the chamber of deputies today in the debate on the German peace treaty said he and his friends would not vote for the ratification of "this peace of force and violence, like those terminating conflicts in the past."

NEW BUYERS COUNTER BALANCE BULLS

Chicago, Sept. 19.—Profit-taking sales on the part of new buyers of corn acquired sufficient volume today to operate as more than a counter-balance for bullish sentiment associated with prospects that rainy weather would delay receipts. The market closed weak, 1-2c to 1 1-4c net lower, with December $1.23 7-8 and May $1.20 7-8 to $1.21 7-8. Oats lost 1-8c to 1-2c. In provisions the outcome varied from 50c decline to a rise of 7c. Altho at first the corn market showed a somewhat pronounced upward tendency, the later dealings were mostly in favor of the bears.

Eastern interests led in the selling.

Oats were swayed by the action of corn.

Slowness of both domestic and foreign shipping demand had a depressing effect on provisions. For the most part, higher quotations on hogs were ignored.

INDUSTRIAL UNREST CURTAILS BUSINESS

New York, Sept. 19. — Dun's tomorrow will say:

"Evidence grows stronger of a seasonal expansion of business activities, but the gain is clearly smaller than it would be if industrial unrest were not conspicuously present. While some troubles have either been adjusted or averted, various strikes continue and others are threatened, as at iron and steel establishments and their deterrent influence is plainly discernible. Not only is there less disposition among some interests to close impending deals while the future is so uncertain, that enforced suspension of operations thru labor controversy tends to restrain production at a time when the fullest possible outputs are essential to reduce mand and supply, which exists in mandand supply, which exists in many quarters.

"Again the calls for more goods with which to meet current extensive requirements, there come frequent reports from widely separated sections of total or partial stoppage of work that results from disagreements over wages or employment conditions and which aggravate the delays in deliveries and not a few important commitments are of necessity being held in abeyance. Weekly bank clearings $8,595,491,239."

TALKED ABOUT ARMY SERVICE FROM WITHIN

Capt. W. T. Harmon Made Informing Address at Rotary Club Session—Some Conclusions from Army Experience.

Capt. W. T. Harmon was the guest of the Rotary club at the weekly luncheon at the Pacific hotel Friday noon. As President Capps was compelled to leave on an early afternoon train, Rev. M. L. Pontius presided. Capt. Harmon talked in a most interesting vein about his army experiences, dealing not so much with personal matters as with conditions as he found them.

Capt. Harmon went to the officers' training camp at Fort Sheridan in August, 1917, and was subsequently commissioned and stationed at Camp Grant for a number of months in training work. Notwithstanding the fact that he so early entered the service, it was not his fortune to go overseas until a few weeks before the signing of thearmistice. While the speaker made no mention of the fact himself, it is known that in the effort to get overseas he willingly gave up the opportunity for advanced rank which would have followed had he remained at Camp Grant.

Disappointment Thru Delays.

The speaker told of some of the difficulties that officers at Camp Grant met in the early days of their training work, for when the first contingents of soldiers came from Chicago there was much less taken in the selection of the men than was true at a later period. The speaker made it clear how great was the disappointment of the officers of the Black Hawk division who spent month after month in training men at Camp Grant, only to have these men taken from their commands and sent to other cantonments for early movement overseas.

It was at the height of these discouragements, about the time that the officers had come to believe that they were destined never to leave camp, that groups of fine young men from Minnesota and Wisconsin came to the camp for training. Then the officers were told that these were the men they were to command overseas and drill work went on with new enthusiasm.

At an European Camp.

Capt Harmon was one of the group of officers sent on to an eastern camp several weeks in advance of the privates of the division, with the expectation that they would also precede them across. However, officers and men went on the same vessels. Arrived in France the officers were sent to the training station of the 3d division with the expectation that they would receive additional training in the movement of men at the front. However, as the officers in command there had no knowledge of such movements except from field glass observation, the officers of the division had further disappointment. When this few weeks of training was completed and the officers went back to Nans to take charge of the companies of the Black Hawk division, they found these companies practically disseminated, as they had been used for replacement in other divisions.

The Black Hawk officers were then placed in command of troops that they had never known before, some of them with practically no drill experience, moved forward ready for advancement to the front, and then came the signing of the armistice. It was one long period of disappointment for the officers of the division.

Then it was that Capt. Harmon took service with the military police in order to have at least that much active service in the overseas countries. The duties of the police were outlined and the speaker explained some of the difficulties which officers and men met in controlling conditions especially because of the relaxation that came when "the bottom fell out" and the armistice was declared.

Some Officers Blameworthy.

In discussing some of the faults of the service and the complaints of private soldiers, Capt. Harmon said that he believed some of these complaints were justified and were the result of the attitude of officers. He said that there is no denying the fact that some officers as they were advanced seemed to feel less responsibility instead of greater responsibility. He said, for instance, that some men who became first lieutenants seemed to feel that that meant that they should relax their duties and delegate them to the second lieutenants. The same thing followed when they were advanced to captaincies and with the result that in some instances the private soldier did not have the attention and care to which he was entitled.

In conclusion Capt. Harmon declared that he believed there were few officers or men who did not come back from Europe with a new reverence for the U. S. and the knowledge that this country is far ahead of the countries of Europe. He said that many men had gone overseas with the feeling that the old countries were somewhat in advance of the U. S., byt they have been entirely disabused of those theories. He made the interesting statement too that while the French people hold the U. S. in high regard, that it is in Belgium that the greatest love and friendship for the U. S. can be found.

A NOBLE EXAMPLE

The venerable Thomas Tissington of Murrayville precinct sent in voluntarily a contribution of fifty dollars for the Passavant hospital fund. No one had asked him but he had seen the call in the papers and knew what was on. Would there were more like him. Who will be the next?

NO FINDING MADE IN CORN CROP CASE

Question as to Rights of City and John Hodges Before Judge Samuel—Jansberg Goes Back to Jail.

The question came before Judge Samuell in the county court yesterday as to the right of John Hodges to remove corn from the land that the city recently acquired thru condemnation proceedings. The decree in the case was so worded that the right of Mr. Hodges to remove the crop is indicated. It is the contention of J. A. Bellatti, as attorney for the city, that this provision was in error and that the decree should be amended. John M. Butler as attorney for Mr. Hodges, is resisting this motion. The court took the matter under advisement.

Jansberg Back in Jail.

Judge Samuell didn't mince words Friday afternoon when S. Jansberg appeared in court and by his attorney made application for release from the county jail on bond. Some weeks ago Jansberg was sent to jail on a charge of abandoning his wife and children, the circumstances attending the case being particularly disterssing and indicating a total disregard on the part of Jansberg for his family.

There had been a suggestion that if Jansberg could furnish satisfactory bond that he would be released, but yesterday in answer to Judge Samuell's questions the defendant was evasive and his conduct was very unsatisfactory to the court. The result was that Jansberg went back to jail where he will remain until he gives some satisfactory indication of a desire to properly care for his family.

COUNCIL MEMEBERS ON INSPECTION TRIP

Can Put Down Walks This Fall Only Where Need is Great

Yesterday afternoon Mayor Crabtree, with Aldermen McGinnis, Williamson and Moore and Otis Hoffman, contractor, made an insuection trip thruout the city. The purpose was to inspect all places where ordinances have been passed for the laying of concrete walks, with special reference to those in the hands of Mr. Hoffman. Because of the labor shortage it is impossible to lay all these walks this year. The policy will be to put down now walks where there are none or where the present walks are in very bad condition. Other work must necessarily be deferred until the spring months.

The inspection trip was made because the council is in receipt of frequent complaints about walks and requests that the construction of certain walks be hurried. It is not possible to grant all these requests but the council will seek to give the greatest benefit to the greatest number.

BALDWIN KNOCKED OUT OPPONENT

Al Baldwin returned from Taylorville Friday evening where he boxed a St. Louis pugilist named Silver Thursday night. The go was scheduled for ten rounds but Silver went out in the second round.

In the first round the men felt each other for a few seconds. Silver proved to be a classy boxer. In coming out of a clinch Baldwin hooked a left to Silver's jaw putting him down.

In the second Baldwin after working on Silver's body shot a right cross to the chin and Silver went down for the count.

HUGH M. WILSON DIES SUDDENLY FRIDAY

Former Resident Here Passed Away in New York City—Mr. and Mrs. Wilson to Attend Funeral.

A telegram Friday afternoon brought to William T. Wilson news of the sudden death of his brother Hugh M. Wilson, in New York City. There had been no local knowledge of Mr. Wilson's illness and no particulars were given in the telegram. Mr. and Mrs. Wilson left last night for Chicago and will proceed at once to Stockbridge, Mass., where the funeral will be held Monday morning. Hugh M. Wilson was the elder son of the late Hugh Wilson, an early and substantial citizen of Jacksonville.

After graduating from Illinois college in 1888 Mr. Wilson for several years was on the staff of the Jacksonville Journal. From this city he went to Minneapolis, where he was located for a number of years associated with the Mississippi Valley Lumberman and the Northwestern Railroader, well known trade publications.

In Publishing Business.

Still later Mr. Wilson changed his place of residence to Chicago where he was a partner in the ownership of the Railway Age. He had early manifested a special ability in developing trade publications of the class with which he was associated and in a few years time the Railway Age felt the touch of his strong personality. After selling his interest in that publication Mr. Wilson for several years had a position of large responsibility with a car building company of Dayton, O. A break-down in health necessitated the surrender of his duties there and after spending a year in travel he became associated with the McGraw Publishing Co. of New York. The firm publishes several journals widely known in electrical and engineering fields.

After a period of very successful work there Mr. Wilson again disposed of his interests and for several years has been connected with the firm of White, Weld & Co., investment bankers with offices in Wall street, New York.

A Successful Man.

The deceased was quite a frequent visitor in Jacksonville as for a period of years he served as a member of the board of trustees of Illinois college. He was accounted one of the strongest and most successful men among the alumni of the institution.

Mr. Wilson was married at Minneapolis to Miss Olive Williams, who survives him. While their home was in New York City, Mr. Wilson had an extensive estate at Stockbridge, Mass., where the summer months for the most part were spent. A letter received here Monday by a nephew of the deceased indicated that the writer was well and was enjoying the late summer days at Stockbridge. Thus the news of his sudden death came as a great shock to members of the Wilson family here in Jacksonville.

WILL OPERATE TWO RESTAURANTS

A few weeks ago "Ben" Owens, formerly chef with Batz Bros., opened a short order restaurant at 208 South Main street, but almost immediately found his quarters too small. No larger building being available in that vicinity Mr. Owens opened negotiations with H. R. Hart, owner of the restaurant managed by W. E. Mayfield at 214 South Main street, for its purchase and came into possession at midnight Thursday. Mr. Owens will operate both until about the middle of October but does not know what his plans will be after that date except that the new restaurant will immediately be put in shape to serve complete meals on short notice.

CHANGE OF PROPIETORS

Having purchased the restaurant and lunch room formerly run by W. E. Mayfield at 214 South Main street, I will run same at present in connection by my lunch room at 208 South Main street and invite a share of your patronage.

NEW FIRM TO OPEN SOON IN JACKSONVILLE

Reeve and Curtis Will Handle Farm Implements, Motor Cars, Tractors, Auto Supplies and Accessories.

A new firm will shortly open its doors in Jacksonville, to handle farm implements, the Chandler automobile, Wallis Cub tractor, tires and a general line of supplies and accessories. The firm will be composed of C. A. Reeve, of this city and W. L. Curtis of Waverly, both well known young business men of this county.

Before his departure Friday for a ten day vacation trip to Lake Matanzas and vicinity, Mr. Reeve stated they would open in Jacksonville just as soon as a suitable location could be found; that it looked now very much as though they would have to build, good business buildings being very scarce.

LOTS OF WATER

Many times in the history of the city the water question has become acute and it almost looked like closing down and then rain would fall and relieve the situation. Morgan lake is nearly empty, the great, ugly banks showing in all their deformity, and soon that source would have been exhausted and then would come warnings to be economical, ice plants would have to shut down, railroads get water elsewhere and so on. Now has come the welcome rain and the creek is running two feet or more deep in places and the water question is solved for several days to come at any rate.

EARLE BRANER WRITES FROM KEY WEST, FLA.

Son of Mrs. O. A. Braner of Route 7 Writes Interesting Letter from Southern Port—Hopes to Be Home by Oct. 1.

Mrs. O. A. Braner of route 7, this county, is just in receipt of the following letter written by her son, Earle Braner, from Key West, Fla. The young man tells of being in a three dayys' storm, said to be the worst which ever raged in the Gulf of Mexico. He was uncertain when he would reach home, but hoped to be here by the first of October. His letter reads as follows:

Key West, Fla., Sept. 13.

Dear Mother:

You no doubt will be surprised to get a letter from me at this place, and to tell the truth I am surprised at finding myself here. Now that the danger is over I can write and tell you not to be uneasy. We have been on the Kilpatrick since the 29th or August. We came into this port yesterday morning after being in a three days' storm, the worst that ever raged in the Gulf of Mexico, they say. We ran out of supplies and came here, and I don't know how long we will be here.

I must say that this is a hard life but I can tell you more about it when I see you. This place is in a terrible condition. It has a population of 23,000 and not a house in the city but is damaged and some of them entirely swept away. I can tell you one thing, I came near being shark food, as well as about 200 other soldiers. It was some breeze.

We have about 600 miles to N. O. and then I don't know just how soon I will be home, but hope it will be by the first of October. I am not feeling much like writing today, but will have lots to tell you when I get back.

Yours,
Earle

PASSAVANT HOSPITAL CAMPAIGN TO BE PUSHED

At Meeting Trustees Friday Evening it Was Decided to Push the Campaign Until the Amount Needed is Secured—Contributions so Far Not up to Expectations.

Trustees of Passavant Hospital met in special session last night to discuss affairs relating to the present campaign. There is no attempt to disguise the fact that the hospital solicitors have not received the expected encouragement. It is also true that some of the trustees and others connected with the campaign have not been active in the work. Dr. W. E. Spoonts as chairman of the campaign has labored faithfully for two weeks and is no more obligated to do this work than are other residents of the city. Thus far the total of the campaign is $4,500.

In the campaign there have been many small subscriptions which the trustees appreciate but they feel that there are many persons who could give larger sums and who have not yet taken part in this laudable work. The new addition must be built and paid for and the trustees declare there is an absolute necessity for using the new boiler house this winter. This cannot be done if the present campaign fails.

At the session last night Dr. A. L. Adams, Rev. A. A. Todd and Thomas Harber were appointed a committee on publicity and the trustees indicated their earnest intention to push the campaign to a successful conclusion. In these past weeks there have been various complaints made with reference to hospital management Some of these complaints have been investigated and found not well founded, but even if all were correct, that has nothing to do with the present situation in the view of the trustees. It is their statement that the hospital is here, that it is needed, that it has been legally taken over by the Protestant churches of Jacksonville and that it is the duty of the people of these churches to see to it that the enterprise is properly sustained and properly managed.

TRADE IN JACKSONVILLE

Many times the Journal has called attention to the importance and desirability of trading at home and yesterday a pair of incidents came to the writer's attention proving the claim made by this paper. A traveling man living in Springfield bought of T. M.Tomlinson an overcoat for $35.00 saying he was going a good bit about the country and found it the best bargain yet.

Another man, from Chicago, bought of Mr. Tomlinson a $40.00 Capps suit saying it was as good as he had found elsewhere at $65.00.

Tris is the best kind of advertising Jacksonville can get and if all had a patriotic spirit the town would be built up finely.
